

Contour ArmSupport Red

Shoulder support takes work comfort to an entirely new level

The extended forearm support for RollerMouse Red, ArmSupport Red aligns the upper body while you type and use your RollerMouse

Perfectly positions for more pain-free productivity, when sitting or standing

ArmSupport Red makes a great productivity tool even better, helping to ensure proper work posture and alleviate muscle strain in your neck, back, arms and wrists while sitting or standing.

Created specifically for RollerMouse Red, ArmSupport Red aligns the upper body while you type and use your RollerMouse.

Able to be clamped to the front edge of desks from 25mm to 44mm in thickness, this accessory to the RollerMouse Red is ideal for height-adjustable workstations.
