

The Ergoapt Groove is a compact, rechargeable, Bluetooth keyboard. The Ergoapt Groove can connect to multiple devices and support tablets or smart phones in the integrated groove.

Product code

OPC11BG

Compact footprint with full sized keys

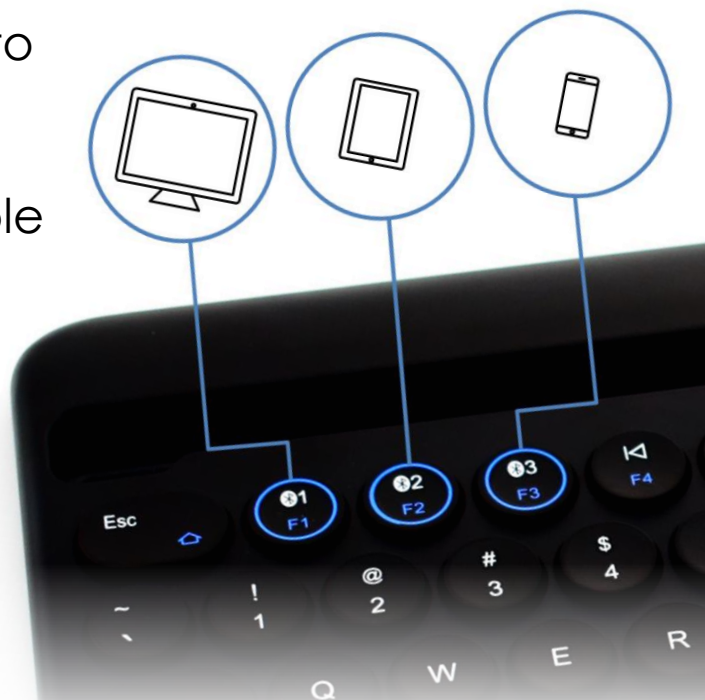

The compact size is space saving and reduces the need to stretch for a mouse. This increases user comfort and improves posture.

The keyboard has a familiar key layout plus shortcut keys, that further reduces the need to reach for a mouse.

The concave, low profile keys, deliver a quiet and comfortable typing experience.

Multitask with multiple devices

Shift between up to 3 devices with the press of a button. Multi task in the office or on the go with Bluetooth connectivity.
