

Score 959 Pro Footrest

Where feet meet function and design

A Score 959 Pro footrest is an ideal solution for those unable to place their feet flat on the floor at a workstation or for those wanting to secure an ergonomic position when seated. Footrests provide support, encourage good circulation and avoid pressure on the thighs when seated. Increase circulation to the legs will reduce feelings of stress and fatigue.

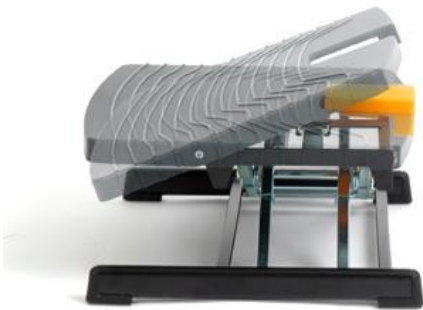

Product Code

PRO959

Robust design and durability

Manufactured from high quality material, Score 959 Pro Footrest has a non skid base to prevent movement in flooring and a tilting foot board with non skid profile. With foot board dimensions of 490mm wide and 400mm deep, adjustable height and free angle movement of 20 degrees, the Score 959 Pro offers more space and freedom to move for your feet.

Key features

- Height adjustment range of 9cm - 37cm
- Adjustable tilt angle of 0 - 87°
- The non locking angle encourages ankle and foot movement, increasing leg circulation
- Large non-slip footboard 49cm wide x 40 cm deep
- Robust design and construction
- Patented scissor mechanism
- Rubber feet ensure a secure not slip platform
