

Ergoapt Pro Footrest

A sturdy footrest with a range of adjustments

The Ergoapt Pro Footrest features a heavy metal frame and a spacious foot platform. The height of the foot platform can be adjusted via a large button located along the top, providing quick and convenient customisation via a gas lift mechanism. The angle of the foot platform can be locked in place at a desired angle or can be left dynamic, allowing for versatile positioning and movement. The ease and range of adjustments encourage regular changes in position and posture, allowing for customisation for various workspaces and individual user preferences and requirements. promoting increased comfort and healthier sitting throughout your day.

Product Code

OPC16PF

Increases comfort and improves posture

The Ergoapt Pro Footrest offers excellent support for feet and legs across various workplace settings, with a height adjustment range of 11 cm to 31 cm. This versatility makes it ideal for use under desks, high chairs, checkout stations, and laboratory seating, preventing feet from dangling and promoting proper circulation.

Simple foot adjustment

The Ergoapt Pro Footrest features a user-friendly height adjustment mechanism that can be easily operated with a single foot, via a large button located at the rear of the platform. This release button, allows users to quickly disengage the lock and adjust the height to their preference before re-engaging it.

Features

- **Sturdy Construction:** Built with a metal base and a powerful gas lift scissor mechanism.
- **Wide Range of Height Adjustment:** Foot platform adjustable from 11cm to 31cm.
- **Foot Activated Height Adjustment Button:** Pressing the button at the rear of the platform disengages the lock, allowing the gas lift platform's height to be adjusted.
- **Spacious Platform:** The foot platform measures 44 cm wide x 32 cm deep.
- **Tilting Platform:** The platform offers a tilt range of 0° to 40°. The angle can be left dynamic, encouraging ankle movement or locked in at the desired angle.
- **Non-Slip Surface:** The ridged surface of the foot platform keeps feet securely positioned.
- **Stable Design:** Equipped with rubber feet to ensure a secure, slip-free base.
